

## Energy at the heart of public action

Solar park project

Solar panels put on top of public buildings roofs

Areas where geothermal energy network could be

Areas where geothermal energy is used

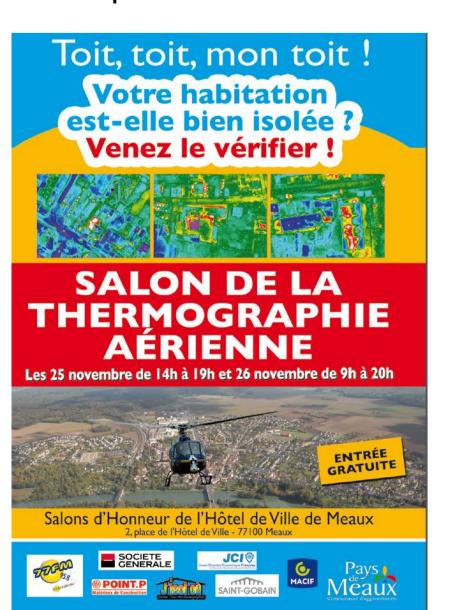

Eco-district Foch-Roosevelt, place where the urban heating network could be reused : 80% of the 3 500 housing unit equivalents. More than half Meaux's housing stock connected to the geothermal heat network. Geothermal energy represents more than 60% of the energy mix.

Examples of new eco-friendly buildings in the eco-district

Pays Meaux Théâtre Luxembourg - Meaux Renseignements au 01 60 09 98 45 www.agglo-paysdemeaux.fr Activities about energy issues

The Sustainable Development Council, a meeting place of exchange about sustainable development topics integrated in the Agenda 21 of the city
